Professional Experience

Tata Consultancy Services, Chennai (Assistant System Engineer)

- Provide end to end production support with the quick response time using IBM sterling OMS and Pet connect Application.
- Pro-actively monitoring various inventory activities using AWS Data Sync services.
- Handling both Sterling Order Management and Warehouse Management Systems in production.
- Prioritize and provide possible solutions on tickets/incidents raised by the business team, warehouse team and various other teams.
- Provide Root cause analysis (RCA) and report system issues to the development team and get them fixed based on impact.
- Monitoring various phases of order flow and proactively identifying and resolving issues.
- Creating reports based on the business requirement through automated SQL procedures.

Strengths

- **Enthusiasm for Learning:** Endlessly strives to learn through different activities.
- **Leadership:** Orchestrated a national level tech fest named "NUTPAM" and intra college hackathon named "AIMBIGATHON" in our college as Student Secretary of the department.
